

AMENDMENTS TO THE SPECIFICATION:

Page 5, please amend the paragraph beginning on line 18 as follows (as previously presented in the Amendment filed April 27, 2009):

--The present invention relates to a method for manufacturing C-13 glycosylnemadectin comprising culturing a microorganism strain belonging to *Streptomyces cyaneogriseus* subsp. *noncyanogenus*, producing and accumulating C-13 glycosylnemadectin and isolating C-13 glycosylnemadectin from the cultured mass. Further, the present invention relates to the microorganism strain belonging to *Streptomyces cyaneogriseus* subsp. *Noncyanogenus* ~~comprising gene groups of avermectin aglycon biosynthesis of *Streptomyces avermitilis*~~ and having ability to produce C-13 hydroxylnemadectin and C-13 glycosylnemadectin.--
